Course Description

Overview:

You've used Microsoft® Office 2007 or Office 2010 to create various types of business materials, from documents in Word to spreadsheets in Excel® to presentations in PowerPoint®. Perhaps you use Outlook® to manage your calendar, contacts, and email; or Access® to manage inventory and trouble tickets.

However you use Office, the fact is the Office suite of applications is the de-facto standard for business productivity software. Each new release of Office builds upon the successes of the previous generations.

This course builds upon the foundational Microsoft Office 2007/2010 knowledge and skills you've already acquired. It focuses on the enhanced features you'll want to leverage to improve the way you manage, organize, present, and distribute your company's data and information.

You'll explore a variety of enhancements, from Word's ability to edit PDF files to the new Flash Fill functionality in Excel that dramatically increases the speed at which you can add data to a spreadsheet. You'll discover how the cloud has been deeply integrated into your Office experience and how collaborating with colleagues has never been easier.

This *Microsoft® Office 2016: Transition from Office 2007/2010* course will help you bridge the gap from the version you already know and love, to the latest release of Microsoft's flagship productivity suite.

Course Objectives:

In this course, you will explore the new features available in Office 2016 applications.

You will:

- Identify new and enhanced features that are common across all applications in Office 2016.
- Modify documents using Microsoft Word 2016.
- Enhance worksheet data using Microsoft Excel 2016.
- Augment a presentation using Microsoft PowerPoint 2016.
- Create a database using Microsoft Access 2016.

- Utilize mail, calendars, contacts, and tasks in Microsoft Outlook 2016.

Target Student:

This course is designed for individuals who already have foundational knowledge and skills in Office 2007 or Office 2010, and are interested in transitioning from an earlier Office version to Office 2016.

This course is also designed for those individuals who may be interested in some of the new features available in the Office 2016 suite of products.

Prerequisites:

To ensure your success in this course, you will need to have familiarity with either the Office 2007 or Office 2010 suite of products, including Word, Excel, PowerPoint, Access, and Outlook.
