

Microsoft® Office Word 2016: Part 2

Course Specifications

Course Number: 091049

Course Length: 1 day

Course Description

Overview:

After you master the basics of using Microsoft® Word 2016 such as creating, editing, and saving documents; navigating through a document; and printing, you're ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Course Objectives:

In this course, you will learn to create and modify complex documents and use tools that allow you to customize those documents.

You will:

- Organize content using tables and charts.
- Customize formats using styles and themes.
- Insert content using quick parts.
- Use templates to automate document formatting.
- Control the flow of a document.
- Simplify and manage long documents.
- Use mail merge to create letters, envelopes, and labels.

Target Student:

This course is designed for students who wish to use Microsoft Word to create and modify complex documents and use tools that allow them to customize those documents.

Prerequisites:

To ensure your success in this course, you should have end-user skills with any current version of Windows®, including being able to start programs, switch between programs, locate saved files, close programs, and access websites using a web browser. In addition, you should be able to navigate and perform common tasks in Word, such as opening, viewing, editing, and saving documents; formatting text and paragraphs; format the overall appearance of a page; and create lists and tables. To meet these prerequisites, you can take any one or more of the following Logical Operations courses:

- *Microsoft® Office Word 2016: Part 1*
- *Using Microsoft® Windows® 10 or Microsoft® Windows® 10: Transition from Windows® 7*

Course-specific Technical Requirements

Hardware

For this course, you will need one computer for each student and one for the instructor. Each computer will need the following minimum hardware configurations:

- 1 GHz or faster 32-bit or 64-bit processor
- 1 gigabyte (GB) RAM (32-bit) or 2 GB RAM (64-bit)
- 25 GB available disk space
- DirectX 10 graphics card and a 1,024 × 576 or higher resolution monitor (1,024 × 768 resolution or higher monitor recommended)
- Keyboard and mouse (or other pointing device)
